ADJUSTMENT SCHEDULE GPS-1 GREEN POWER BLOCK SCHEDULE

APPLICATION

Adjustment Schedule GPS-1 ("GPS-1") shall be applied to Standard Offer customers who wish to purchase electricity generated from renewable sources for their homes and/or businesses. All provisions of the customer's current applicable rate schedule will apply in addition to this surcharge.

Electricity from renewable sources shall be referred to herein as "Green Power". Green Power may be:

1. Company-owned generation using eligible renewable resources as defined by the Renewable Energy Standard rules (A.A.C. R14-2-1802 and successors).
2. Generation not owned by the Company, but owned by another party for which the Company has contracted using eligible renewable resources as defined by the Renewable Energy Standard rules (A.A.C. R14-2-1802 and successors).

TYPE OF SERVICE

The Company will offer electricity generated from renewable resources delivered through the Company's electric distribution system.

Effective October 1, 2009 the Company, at its discretion, may limit the number of kWh blocks sold to any one customer to no more than five percent of total Green Power procured for service under schedules GPS-1, GPS-2, and GPS3.

The customer shall subscribe for a specific number of blocks of electricity generated from renewable resources. Each block shall equal 100 kWh per month. The monthly charge is based upon the number of blocks subscribed for by the customer.

The Company shall limit the participation in GPS-1 based on the Green Power available to provide service under this rate schedule.

Customers are required to subscribe for a minimum of one year, but can commit to subscribe for a longer period at their discretion. Charges under this schedule will be adjusted annually with Commission approval. Customers may cancel GPS-1 service if the charges increase during the one year or longer commitment period.

GPS-1 may not be used in conjunction with rate schedule GPS-2.

SERVICE CHARGES

Service under this rate schedule shall be billed the Green Power Block rate of \$1.02 per month for each 100 kWh block of Green Power. This charge is based on the Green Power Premium rate of \$0.0102 per kWh of Green Power times 100 kWh.

ADJUSTMENT SCHEDULE GPS-2 GREEN POWER PERCENT SCHEDULE

APPLICATION

Adjustment Schedule GPS-2 ("GPS-2") shall be applied to Standard Offer customers who wish to purchase electricity generated from renewable sources for their homes and/or businesses. All provisions of the customer's current applicable rate schedule will apply in addition to this surcharge.
